University of Washington, Bothell

Inclement Weather/
Suspension of Operations Procedure

Introduction
This procedure applies to the closure of the University of Washington, Bothell and provides operational guidelines to implement the University Suspended Operations Policy (University Handbook, Executive Order #27). Please note the decision to suspend operations on the Bothell campus is made independently of the decision for the Seattle or the Tacoma campus.

All faculty, staff, and students should assume UWB is open and holding classes unless notified to the contrary in accordance with these procedures.

Implementation
This procedure will be implemented whenever emergency conditions require that the University of Washington, Bothell suspends operations. Decisions regarding closure and or cancellation of classes should be made prior to the following times, although unexpected weather conditions may alter this schedule:

- 6:00 AM.: Early morning classes from 8:00 - 11:30 AM.
- 9:30 AM: Mid-day classes from 11:30 - 4:30 PM.
- 2:30 PM.: Late afternoon/early evening classes from 4:30 – 8:00 PM.
- 5-6:00 PM: Late evening classes from 8:00 PM – 10:00 PM.

Emergencies and Disasters
Suspension of operations is the temporary discontinuance of normal work activities, academic or support programs, and other campus events. Campus-wide disasters, complete power and telecommunication outages, or localized emergencies on campus will be covered by the University’s Emergency Operations Plan. When operations are suspended due to an emergency, the following will occur:

- Assessment of conditions and potential to seriously disrupt the operations of the campus.
- Decision to suspend operations.
- Activation of notifications systems to inform faculty, staff, and students of suspension decision.
- Application of compensation guidelines for time off during suspended operations (University Handbook, Executive Order #27).

Administrative Services will continue to be operational and staffed regardless of suspension announcements, but may operate on a reduced schedule or scope of activities. In addition, each major unit of UWB has designated an individual who will be considered “essential” during suspended operations, and will be responsible for updating voice-mail and e-mail communications in that unit.
