

Student Technology Fee Request for Funding

Project Title – Wall Mounted Display Monitors

Brief Project Overview

Information gets posted on the walls of UWB and it would be better to add wall mounted monitors to display the information and help eliminate some of the postings. Also, the display monitors would add a more professional look and feel to the campus.

Full description of the project that includes the following sections:

A. The goal of the program or project

The primary goal of this project is to give the students the ability to display more professional video and PowerPoint presentations throughout the campus at the same time getting information to their fellow students in a more effective manner.

B. A description of the program and how it will benefit the student body

Students will be able to display professional videos and PowerPoint presentations to attract more attention to their announcements. Also, in case of emergency announcements students will be using one more medium to attract attention to the emergency.

Each template includes: Two backgrounds (title page and regular page) based on a theme that you choose (eg: announcement, lunch menu, etc.) Two pages using each background with placeholder text. Optional placeholder for picture/ graphic clip (regular page only).

D. How the project will be implemented and by whom

The Information Systems Department will order the display monitors and work with the software vendor to put the display system in operation. The Information Systems staff along with Plant Operations staff will install the monitors throughout the campus. Location of the monitors will be determined by the campus administration. Once the monitors are in place the Information Systems Department will work with the system vendor to have them train select users on how to use the monitor display system.
