

## Student Technology Fee Request for Funding-Page 1

Program Title: Campus Library Information Commons Computers

Campus Affiliation: Campus Library

Contact Person: Rob Estes

Email: restes@uwb.edu

Campus Phone No. 2-5242

Campus Box No. 358550

### **Brief Project Overview**

The Campus Library has 60+ computers available for student use located in the Information Commons and throughout the Library. Of those, 20 remain that are now nearly four years old.

The UWB curriculum places great value on research, writing and the use of technology to support course related activities, such as research, presentations, Blackboard and email. The computers in the Library provide access to all of these resources and much more. They are available to all UWB students at all hours the Library is open. This includes hours well beyond those of the UWB Computer Drop-in Lab, allowing students expanded access to computing resources in the evening and on weekends.

The Campus Library is seeking funding from UWB to replace 12 of the 20 older student access computers. This would allow us to continue on a three year equipment replacement cycle where all (60) student access computers are replaced every three years with costs shared between Cascadia and UWB student funding sources.

### **Full description of the project that includes the following sections:**

#### **A. The goal of the program or project**

In order to operate reliably and to run current software, high use computers generally need to be replaced every three years. Through the informed decisions of past UWB STF Committees, the Campus Library has been able to replace at least 12 computer workstations in the Information Commons each of the last two years. With this support, and continued funding from the Cascadia Community College Student Technology Fee Committee, we hope to continue to replace our older computer workstations and provide access to current, up-to-date technology for all of our students. Replacing the older computers will also provide an upgrade path to the next generation of Operating Systems.

#### **B. A description of the program and how it will benefit the student body**

This program ensures the availability of current technology for students using the computers in the Campus Library to pursue their academic goals and provide access to campus technology resources in an efficient, convenient manner.

#### **C. Specific information about the equipment and/or services being requested**

|                            |                                    |
|----------------------------|------------------------------------|
| <u>Dell Optiplex GX755</u> | Intel Core 2 Duo E6850 3 GHz       |
| 160 GB HD                  | 2 GB DDR2 SDRAM                    |
| 16x DVD+/-RW               | 3-year NBD onsite warranty service |
| 19" LCD Monitor            | DVI / VGA video                    |

#### **D. How the project will be implemented and by whom**

Library Technology Services staff will set-up, install and maintain all workstations. Reference Librarians, Student Technology Consultants and other Library staff will provide assistance for students using the

workstations. The Campus Library agrees to incur related ongoing costs for providing these services, such as those associated with technical support, maintenance and user education.

**E. What departments will be involved in the installation and support of this project**

The installation and support of this project will be handled completely by the Library Technology Services staff within the Campus Library.

**Student Technology Fee Request for Funding-Page 2**

| ITEM (complete description of item, type of product, quantity) *   | Unit Cost        | Full Cost including Tax |
|--|------------------|-------------------------|
| Dell Optiplex GX755 system with 19" monitor (12 units) <ul style="list-style-type: none"> <li>• Intel Core 2 Duo E6850 3 GHz (1333 MHz FSB)</li> <li>• 160 GB HD            2 GB DDR2 SDRAM</li> <li>• 16x DVD+/-RW      3-year NBD onsite warranty service</li> <li>• 19" LCD Monitor    DVI / VGA video</li> </ul> | \$1,539.60 + Tax | \$1,676.63              |
|  |                  |                         |
|  |                  |                         |
|  |                  |                         |
|  |                  |                         |
| <b>TOTAL</b>   |                  | \$20,119.56             |

\* This page is a crucial portion of your funding request. Items have to be described in detail, the number of people who this event will serve, quantity and cost of each item, etc. Pricing must be supported by additional documentation from the organization providing the items. Please be specific when listing costs, otherwise your request might not be granted.
